Find out how

Do you spend your time managing your systems - or managing your business? Does your system give you a competitive advantages?

Navision Financials is the ideal choice if you are searching for an advanced enterprise solution that you can afford. Navision was developed specifically to meet the needs of your business.

Navision gives you:

- An application that is easy to customise to your business needs.
- "Microsoft - compliant" interfaces that minimise training time.
- Powerful 32-bit technology.
- Exceptional access to data, including query and drill-down capabilities.
- A cost-effective solution with features typically found only in "big company" software.
- Support for electronic commerce and Web-site integration.
- An application that is ready for Year 2000 and the Euro.

*E*Vision Ltd. together with Navision Financials provide business solutions that deliver a competitive advantage.
